

Suggested Resources for Managing Sleep Difficulties in Older Children and Adolescents

Please find below a list of resources that other young people and families have found useful in the past. We hope that you find these helpful.

Suggested Apps Relaxation and mindfulness can be useful skills to develop to help children and young people cope with sleeping difficulties. These can be practiced with the Smiling Mind, Headspace and Calm and Pzizz apps.

App	Helpful for...
Smiling Mind 	• Age: suitable for all ages • Contains a sleep module with 4 sessions designed to support calm and restful sleep for teens • Provides different guided relaxation and mindfulness exercises • Free
Head Space 	• Age: older children and adolescents • Provides meditation and breathing exercises to help prepare for sleep • Has a free trial
Calm 	• Age: older children and adolescents • Suitable for older children and teenagers • Provides relaxation exercises including a visual aid for controlled breathing techniques
Pzizz 	• Age: adolescents • Offers tips on how to get better sleep • Free relaxing audio clips to encourage restful sleep • Lots of free content in addition to options for in-app purchases
